

CADETS IN DANGER BECAUSE OF FIRE

MISSOURI MILITARY ACADEMY BURNED.

Flames Break Out at an Early Hour Yesterday Morning—Narrow Escape of One Hundred Students Who Were Asleep in the Building—The Injured.

Mexico, Mo., Sept. 25.—The Missouri Military academy, located in the southern portion of this city, was burned to the ground Thursday morning. The fire was discovered at 1 o'clock by Cadet Dunfee, who was awakened by the smoke. By the time the alarm was given smoke was issuing from all the windows in the central part of the building. About eighty cadets and the family of Colonel A. F. Fleet, the principal, and the officers, nearly 100 in all, were asleep in the building. There was a wild rush for the halls and stairways, but the flames and smoke stopped all egress through the doorways, and the young men began to leap from the windows. Some were let down a part of the way on sheets and bed clothes tied together. Others swung out from the sills and then dropped to the ground below. Many were injured, and those who could not help themselves were cared for by the more fortunate, and they were conveyed into the armory. Explosions occurred at frequent intervals, and when the powder magazine, situated under the flag tower in the center of the building, was reached by the flames, the concussion was terrific.

The seriously injured are:

Walter Wolf, East St. Louis, jumped from the third-story window; spine very seriously injured.
George Guernsey, Independence, body and face badly burned.

Robert Judson, Salem, shoulder dislocated and back seriously injured.
Walter Halliday, St. Louis, internal injuries.

C. G. Kidd, Hannibal, Mo., back injured.
John McClellan, Enid, O. T., left arm broken and shoulder dislocated.

William Pratier, Cairo, Ill., left arm broken.
Daniel Boone, St. Louis, ankle sprained, right leg broken.

Gordon Cox, St. Louis, right elbow dislocated.
Bruce Christian, Fairfax, Mo., face injured.

Frank Maxwell, St. Louis, slightly burned.
Prosser Ray, St. Louis, body bruised.

G. H. Sutherland, St. Louis, shoulder hurt.
Leon Meyer, St. Louis, ankle sprained.

Leslie Wheeler, St. Louis, back injured.
Capt. Greiner, left arm broken, ankle sprained.

Capt. Glasscock of Ohio, badly cut.
Walter Elliott, Humansville, Mo., foot injured.

M. C. Dobson, Kansas City, Mo., sprained back.
Walter Sartorie, St. Louis, arm broken.

The origin of the fire is unknown. It is believed by several officers connected with the academy that it was the work of an incendiary. The cadets and officers, as well as Col. Fleet and family, lost everything they had, and the loss on personal property will amount to several thousand dollars. The total loss is estimated at \$75,000 and there was about \$40,000 insurance.

We also have instructions from our national committee to the same effect, and we have decided to put out ten democratic and five populist electors and certify the same as our electoral ticket. The several committees will meet on next Tuesday to arrange full details."

TO HEAR GLADSTONE.

Great English Statesman Talks on Armenian Question.

Liverpool, Sept. 25.—Enthusiastic crowds of people assembled at an early hour Thursday in the vicinity of Henglers' circus, all anxious to push into the building and hear the eagerly anticipated address which the Rt.-Hon. William E. Gladstone had announced his willingness to make before the meeting called by the Reform club to protest against the recent massacres of Armenians at Constantinople and elsewhere in Turkey. After the usual formalities of opening such a meeting had been concluded, the first resolution, proposed by a conservative and seconded by a liberal, was put. It read: "That this meeting desires to express its indignation at and abhorrence of the cruel treatment to which the Armenians are being subjected by their Turkish rulers, and of the massacres which have recently occurred at Constantinople, which are a disgrace to the civilization of the nineteenth century."

The resolution was adopted by acclamation. Mr. Gladstone expressed the opinion that the purpose of the gathering was defensive and prospective, saying that no one would hold out the hope that the massacres were ended, although he ventured to anticipate that the words spoken at the meeting would find their way to the palace at Constantinople.

Mr. Gladstone then said: "I doubt if it is an exaggeration to say that it was in the sultan's palace and there only that the inspiration has been supplied and the policy devised of the whole series of massacres. When the sultan carries massacre into his own capital under the eyes of the ambassadors, he appears to have gained the very acme of what it is possible for him to do."

"But," the speaker further said, "the weakness of diplomacy, I trust, is about to be strengthened by the echo of this nation's voice."

It is also announced that arrangements have been made with the railroads for a round-trip rate of one and one-third fare.

CLOSE TO TWO MINUTES.

John R. Gentry Establishes a New Pacing Record.

Portland, Me., Sept. 25.—The world's pacing record stands at 2:00½, and John R. Gentry is king.

At Rigby park Thursday in the face of the light breeze, he made the mark that is destined to forever make his name famous among horsemen. The first quarter was paced in 29½ seconds, and when at the half the judges gave the time as 59½ seconds all the old horsemen began to look for a two-minute pace. The third quarter was reeled off in 30½ seconds, making the time at that post 1:30½. Down the home stretch Gentry came like a whirlwind. At the turn he got the breeze right in his teeth, and Andrews shouted encouragingly at him, while the crowd fairly howled. Nerved to a supreme effort, Gentry made the last quarter in even faster time than the third quarter, doing it in 30½ seconds, and as he came under the wire in 2:00½, the enthusiasm of the spectators knew no bounds.

Gentry's previous record of 2:01½ had never been surpassed, though once equaled by Robert J. at Terre Haute in 1895.

HIS CAMPAIGN BUTTON.
—New York Recorder.

The speakers were Amos Steffee and W. J. Hulings.

The marching of the forty-five young women representing the forty-five states of the Union, each carrying a large basket of roses, was really one of the most unique features yet introduced in the campaign. The baskets were taken from the women as they approached Mrs. McKinley and arranged on a pyramidal platform of large proportions and there allowed to remain all day and to be admired by thousands of Cantonians. In the evening the baskets were taken to the Aultman hospital and to private homes where sickness prevails.

FREE SILVER RALLY LAST NIGHT

Silverthorn Meeting Was a "Frost" and
Many People Left.

The first free silver rally in the city
of Janesville, was a decided "frost,"
and many people left before the ad-
dress was finished. Hon. W. C. Silver-
thorn, of Watonsau, the candidate for
governor, was the speaker. A good
sized audience was present, although
many of the seats were vacant. Thir-
teen men, including Mr. Silver-
thorn, sat on the stage. Some of them
were the "Jeffersonian democracy"
pins—emblematic of honest money.

Hon. William Smith called the
meeting to order and said that there
"must be mal-administration some-
where," a statement that created no
excitement as it is generally known to
be true—when the republicans are not
in power. He told about the starving
men that were "abroad in the land,"
and whacked the plutocrats. He said
the "democrats never had a braver, or
truer candidate for president, than
the gallant Bryan" and seven men by
actual count clapped their hands
feebly. Mr. Smith also told a story
about the battle of Bull Run. He said
all the privates were on the keen gal-
lop, or words to that effect, while the
officers were "behind the trees." He
likened the present situation to his
story, and said the "officers were be-
hind the trees" again, although he
seemed loath to admit, by the inference,
after he had told the story, that the
privates were all running for shelter.

Mr. Silverthorn was then introduced
and told the story of the shameful
abuse of silver. He "began at the be-
ginning and told about the 'crime of
'73"—although he did not say that
Senator Stewart was one of the
"criminals." He spoke at length
in telling what money was, and de-
clared "we wanted money made of
both gold and silver." He made no
statement tending to show that he
was aware that any silver money now
existed. One of his arguments was of
this weighty caliber:

"The United States fought the Indian war
with the money system based upon that (1792)
unit, a so the French war and the war of 1812,
when we gained our independence for the second
time, and the time is coming when we must
again gain our independence."

No applause greeted this "climber,"
however. He also told how everything
"was going down," and in closing
made the plea that the people investi-
gate for themselves.

The audience seemed to be uneasy
during the speech, and several people
who occupied seats in the orchestra,
disturbed the meeting somewhat by
leaving while he was talking. The
applause was very weak. Not one
cheer was emitted, except when he
told how the Americans drove the
British out of Boston, and the hand
clapping was very listless.

"About two more speeches," said a
democrat as he left the hall "and the
free silver cause will be dead as a
door nail."

When the meeting opened less than
half a dozen men, including the speak-
ers, were on the stage, but after a
committee had been sent out and

brought in several politicians the
party included:
Hon. John Winans,
J. J. Cunningham,
C. K. Miltimore,
J. M. Palmer,
P. J. Moutat,
I. F. Connors,
J. L. Mahoney,
William Smith,
B. H. Fulker,
F. C. Burpee,
Horace McElroy.

RICHMOND'S WEAK TALK AT BELOIT

The Audience Smiled at Some of the
Statements He Made.

Beloit, Sept. 25.—[Special]—T. C.
Richmond, of Madison, the prohibi-
tion-popocrat speaker, delivered an ad-
dress here at the opera house last
night to a small audience on the
subject of free silver. His talk was in
the usual strain and many of his
assertions made thinking people smile
but they admired the nerve of the man
to come out before an intelligent
audience and make some of the ab-
surd statements he did.

WORKMEN CHANGE ASSESSMENTS

The Grand Lodge Votes in Favor of the
New Idea.

The Wisconsin grand lodge, Ancient
Order of United Workmen, at the Mil-
waukee meeting, decided to adopt
the new plan of classified assessments
and benefits agreed upon by the na-
tional grand lodge in July. According
to the new rating the assessments are
increased for each member every five
years until he becomes fifty years of
age, when he continues to pay \$1.75
on a certificate for \$1,000, or twice
that amount for a certificate of \$2,000.
The officers of the grand lodge sub-
mitted a table of the assessments
which would have been levied under
the new classification for 1895, and the
tables show that the total income of
the jurisdiction, \$210,873.84, would
have exceeded the liability for death
losses by \$28,873.84 had it been in
force, while under the present system
a deficit of \$18,732 was made up from
the general relief fund.

TO SWAT MONEY POWER HEAVILY

With Lynch in Wisconsin and Proudfoot
in Pennsylvania Things Look Dark.

The Gazette is glad to know that
W. R. Proudfoot, the former superin-
tendent of the Janesville Street Rail-
way, is enjoying good health, etc.,
at Philadelphia. Mr. Proudfoot's let-
ter to C. C. McLean says that the
former Janesville man now believes in
free silver, and that he thinks "the
money power should be taught a les-
son." Now that Mr. Proudfoot's health
is good; that his muscle is hard; and
that he has the co-operation of Mr.
J. S. Lynch of Avon, the ex-park
policeman, it may confidently be as-
serted that the "money power" will
get "its lesson" in short order.
Personally, Mr. Proudfoot is a
very clever gentleman, but politically,
well, when Mr. Lynch carries Wiscon-
sin probably Mr. Proudfoot will be
able to swing Pennsylvania.

CAN'T CALL HIS CALF TWINS

How a Stock Farmer Looks on Candidate
Bryan's Strange Theories

A stock farmer, who applies the
Bryan theory to his own case sizes the
situation up thus:
"Could I take a calf, label it 'This
is twins,' and sell it to a butcher for
twice its value?" he asked. "Not
much. The butcher is no fool.
Neither is the farmer. No silver mine
owner is going to make me take 50
cents worth of silver for twins. The
farmers are all right, and the rural
districts may be relied on to largely
increase republican pluralities in the
present emergency."

THE DOG THOUGHT THE CAT REAL

Roscoe Artist Is Paid a Compliment That
He Appreciated

An artist from Racine Ill., was
much elated over a happening at the
Rock County fair. Among his numer-
ous paintings was one of a cat. While
Mrs. Vandewater of this city accom-
panied by her favorite dog, was pass-
ing through the art building, the dog
suddenly stopped and set up a howl at
the cat. This fact pleased the artist
and he immediately said that was one
of the best testimonials he had ever
received.

SAW CANADIAN BARLEY COME IN

Farmers Who Visited the State Fair Got
An Important Lesson.

"There was a political object lesson
for farmers who went to the state
fair," said a Janesville man today.
"Along the river there could be seen
big boats unloading Canadian barley
for the breweries. Considering that
those breweries bought Wisconsin bar-
ley until the tariff was changed, the
showing was significant."

THE OVERFLOW OF LOCAL NEWS.

ALL IS QUIET IN LEAF CIRCLES

Very Little is Doing, the Leaf Says—Rain Did the Damage.

All quiet along the tobacco warehouses, is the universal report, says The Janesville Leaf. Local dealers are doing comparatively nothing. They are selling but little tobacco, and will not buy to any extent until market conditions brighten up in the eastern markets.

Once in a while a dealer will ride for a day or two, but the volume of purchases made are very limited, and prices are about the same as have prevailed for some time past.

Among the larger transactions reported are: 261 cases of '93 and '94 sold by George H. Rumrill; 150 cases of '94 sold by J. B. Dearborn and 80 cases of '95 bought of Conway Bros. by Soverhill & Porter. J. L. & F. M. Greer, Joseph Grundy and G. H. Rumrill have been shipping liberally this week as have also Rudolph, Haviland & Son.

Considerable rain last week served to disturb the mental equipoise of the farmers, who anticipated pole-rot, but dry and cool weather following has allayed all fears in that direction and all is serene about the sheds, where the hanging crop is curing out in perfect condition.

Some sampling of the '95 crop has been done throughout the state and the result has been very satisfactory in every instance. There is less damage than for several years before. This causes the packers to become somewhat exultant.

J. L. & M. F. Greene shipped a car load of tobacco this week.

F. S. Baines is treating his immense warehouse, at the corner of Madison and Wall streets to a coat of paint.

Merritt Haviland, of Rudolph, Haviland & Son, left Wednesday for a ten days' trip through Illinois in the interests of his firm.

LOCAL FOLK HOME FROM FAIR

Janesville People Say the Milwaukee Show Was Not a Success.

A goodly portion of the Janesville delegation who were in attendance at the State Fair returned home last evening. In the eyes of the majority of Janesville people the fair was not the glorious success that was expected, and in spite of the perfect weather it failed to bring out the expected crowds. The opinion of all is that if Rock County had been treated to the same kind of weather her fair would have been second to none. Those who returned home last evening were: J. W. Carpenter, Dr. James Mills, Ogden H. Fethers, William Knipp, W. A. Jackson, W. T. Van Kirk, H. Buchholz, Cyrus Miner, A. J. Harris, S. Tallman, P. L. Hinrichs.

GET APPETITE

IF YOU DON'T, YOU WILL NEVER BE STRONG OR HEALTHY.

Appetite is one thing that you can't afford to be without it, for without it your health, strength and comeliness flies out of the window.

Poor appetite means weak stomach, starved body, sick individual. Good appetite the opposite.

Poor appetite is a sign that your stomach is too weak for digestion. You can aid it with the Shaker Digestive Cordial.

When your stomach is able to digest all the food that your body needs, you will have a good appetite. Not before. Good food, well digested, means strength and a long healthy life. Undigested food creates poison which affects the whole body, and may give you headache, dizziness, nausea, constipation, flatulence, languor, weakness, mental depression, stomach-ache, fever, nervousness, offensive breath, anemia, rheumatism, etc.

All these disorders will be relieved if you will take Shaker Digestive Cordial. It is a pure vegetable digestive and natural invigorator, which aids the stomach, purifies the system of the poisons of indigestion and makes you strong, fat and healthy.

Shaker Digestive Cordial does not act on the liver, but on the undigested food in the stomach. It cures indigestion or biliousness without irritating the liver or any of the internal organs. At druggists. Ten cents for a trial bottle.

Write for free book to The Shakers, 30 Reade Street, New York.

J. S. ANDERSON IS CLEARED.

Madison Judge Throws a Suit Out of Court.

The case of Charles Peterson vs. J. S. Anderson was on trial in the circuit court at Madison yesterday. The plaintiff resides near Beloit, and the defendant is the Janesville real estate agent. The case was originally commenced in this county, and a change of venue taken to Dane county. The action was brought on a contract in reference to the sale of a farm near Beloit. On the plaintiff's own statement the court held he had no cause of action. Olin & Butler appeared for the plaintiff and George G. Sutherland and Charles E. Pierce for the defendant.

THE TRAMPS ARE QUITE NUMEROUS

Some Are Headed South Returning From the Wheat Belt.

During the past week tramps have been numerous in Janesville, but especially in the vicinity of the railroad yards. The police say that the men would not all be considered tramps for some of them are wandering working men now stealing their way on the trains from the wheat fields of Dakota and Minnesota to a much warmer climate in the south. During the past few nights every incoming freight on both roads brings some of the hoboes into town. The police make them "move on" at once.

SUTHERLAND MAKES TWO RUNS

The Ex-Alderman Almost Sure of the State Century Medal.

Ex-Alderman Orion Sutherland made two century runs in two days recently. Wednesday he left this city at 12:30 o'clock for Oconomowoc and made the round trip of one hundred miles inside of seven hours, which is considered fast time. Early yesterday morning he made the trip to Harvard, Ill., and return. With the addition of these two runs, his chance for winning the state century medal is made almost certain.

If all the silver and gold in the world were brought to this country and coined into money the poor man would have to labor for every dollar he gets just the same. What the laborer of the country wants is steady work at better prices. Except in the silver mines and smelters free silver will not give a man a single day's work. But a protective tariff will, and that is what the workingmen of America want. They further want the dollars that they earn to buy just as much as possible. They don't want a dollar that will buy only one-half as much as the present dollar.—Memento (Ill.) Press.

A WOMAN VETERINARY.

Interesting Operation for Fracture Performed on the Leg of a Canary.

To Mrs. Charles E. M. Keldin of this city must be given the credit for a delicate piece of surgery that should awaken the admiration of professionals, says the New York Journal. A cage containing a favorite canary fell to the floor, and in the crash poor little Dick suffered a broken leg.

Mr. Keldin summoned his wife and installed her as chief surgeon. Reaching into the cage he quickly seized the little sufferer and secured him firmly in the palm of his left hand, with both tiny legs turned upward.

A tiny splint was then cut from a match and a lint of cotton one-half an inch wide and about three inches long was well saturated with listerine. Mrs. Keldin then, with a delicate touch, straightened the leg, applied the splint and wound the limb, which was held in place by thread.

The bird moped for a day or two, but gradually grew cheerful, and at intervals would cautiously put down his lame leg. On the fifth day he kept the leg down and sung as cheerfully as ever.

On the tenth day the bandages were removed, as he was discovered pecking at them. Barring a slight enlargement at the point of the fracture the little songster is as good a bird as ever.

Learn to Listen Intelligently.

"Learn, after you have learned to speak, to listen and to listen intelligently," writes Ruth Ashmore in Ladies' Home Journal. "Express your interest through your eyes, and when it is needed say the encouraging word that, like hot water on the tea, brings out the strength. If a speaker mentions a wrong date do not correct her. The world cares for the interesting talk, not for whether the affair described happened on Thursday or Friday, nor whether the bonnet was born at 9 or 1 o'clock. The effect on the speaker is belittling, and you have no right to underrate any one. Chatter about anything you will but personalities. But do not feel that you must raise the tone of society by ringing in, when everybody is laughing at some funny little story about a child or all are smiling at an amusing description of how the orange blossoms grow down south, your opinion of some heavy history that has lately been published. Society is not a school; it is a pleasure ground."

Toll.

"Have you written your graduation essay?" asked Maud.
"Yes," replied Mamie.
"Wasn't it a lot of work?"
"Just dreadful. First I had to hunt up words that were big enough and then I had to keep looking in the dictionary to see what they mean, and, honestly, I began to think I never would get it finished."—Exchange.

Pretty Rich.

Once upon a time a goat, who was about to partake of a poster, bethought him to observe the trend of the jest which it was designed to depict.
"Ha, ha," he laughed, "ha, ha. That's pretty rich. I guess I'd better not eat it, with this touch of indigestion I'm having."—Detroit Tribune.

...Adam Fell...

This was the first fall that is on record, and it was at an early date, long before the invention of the flannel night shirt, but if that fall was as chilly as this promises to be, no doubt Adam would have appreciated such a garment—for no modern invention with the possible exception of the liquid bait, can, and the curling iron, has so completely filled a long felt want as the flannel night shirt. Nothing that the women of the house could do would be more appreciated by the men folks than to take up a pair of these garments for him; he is sure to like them and their possession will make him happy.

Our way of handling the material that goes to make up these gowns brings their cost down to a fraction, for we sell shilling values for a sixpence.

Whittenton's English Flannel-ettes is the name of the fabric, which comes in both light and dark colors, is weighty, soft and fluffy, pleasant to handle and pleasant to wear; positive value is a shilling, and our price today is half, =6 1/4c. 6 yards makes a night shirt, costing 38c; 5 yards makes a gown, 31c. 3,500 yards, today and while they last, 6 1/4c per yard.

Do not confound these with goods you see in other stores at a similar price, for these are far superior, and as in the case with any of our advertised specials, are a positive bargain.

A motto for working men and women:

"A dollar's worth of dollar for a dollar's worth of work."

THIS DAY IN HISTORY.

1493—Columbus left Cadiz on his second voyage

with 17 vessels and 1,500 men.

1513—Balboa discovered the Pacific ocean and

took possession in the name of Spain.

1630—The Marquis of Spinola, famous Spanish

commander, died.

1750—Abraham Gottlob Werner, German geologist

and promoter of the deposition theory of

mine formation, was born.

1775—Ethan Allen was captured by the British.

1794—Mrs. Felicia Dorothea Hemans, poetess,

was born in Liverpool; died 1835.

1850—George Steers, builder of the famous

yacht America, which brought the queen's

cup to America, killed by being thrown

from his wagon.

1857—British troops relieved Lucknow and

saved the garrison.

OUT OF HIS OWN MOUTH.

Intoxicated with the charm of his

own voice, young Mr. Bryan is mixing

things up. In a recent speech, after

admitting that "any person in the

world could bring that bullion to our

mints and have it converted into full

legal tender silver dollars just like the

ones you use today," he makes the

supposititious proposition that these

dollars might be traded for gold dol-

lars, and then denies that this transfer

could be effected. Then, after assert-

ing his objections to the free coinage

of silver at 32 to 1, on the ground that

it would decrease the value of prop-

erty, he adds: "We are in favor of a

ratio of 16 to 1, not because we pro-

duce silver, but because we use both

gold and silver, and need all the gold

and silver to keep the parity between

money and property."

It must keep Mr. Bryan's disciples

busy following such logic. Their

youthful oracle admits what he can-

not deny, namely, that silver could

not be exchanged for gold at a parity,

and in so doing he clinches the very

argument advanced by the believers

in sound money, that any given quan-

tity of silver dollars would be the

equal of a lesser and indeterminate

quantity of gold. The necessary

result of this would be the

withdrawal of all gold from circulation,

in accordance with the natural

law, yet Mr. Bryan claims that we

need all the gold we can get, in order

to keep "the parity between money

and property." That is, we require

both metals as a basis for our cir-

culating medium, but under free coin-

age gold will be permanently retired.

Such is his own admission.

There is an old saying about cer-

tain characters who if given enough

rope will be certain to hang them-

selves. The saying fits young Mr.

Bryan to a nicety.

BRYAN A FAIR.

William J. Bryan has visited Ken-

tucky and Kentuckians have taken

his measure. The Louisville Courier

Journal remarks:

"He is a boy orator.

"He is a dishonest dodger.

"He is a daring adventurer.

"He is a political fakir.

"He is not of the material of which

the people of the United States have

ever made a president, nor is he even

of the material of which any party

has ever before made a candidate for

the presidency.

"Honest and earnest advocates of

free silver who heard him last night

must in their hearts be deeply

ashamed of their candidate. Not

once did he rise to the plane of seri-

ous argument. Not once did he mani-

fest an appreciation of the dig-

nity of his position. Not once did he

treat his great audiences frankly and

fairly."

EASY TO GET PERMISSION.

Edward Atkinson, who makes few mistakes in his figures, has collected statistics on the silver output. He says that more than three-quarters of the present product of silver bullion of 175,000,000 ounces a year, comes from mines belonging to British owners. Mr. Bryan promises to double the value of this British bullion by the stamp of American mints, and without asking the consent of any other nation on earth. It is suggested by an exchange that he would not have to ask a second time for the consent of the British silver barons.

Sam Jones, the Georgia evangelist, says he's a democrat, and then he fires this broadside at the democratic election officials: "I no more believe that we will have a fair election in Georgia on the 7th of October than I believe that every bum and thug and papsucker in the state is a gentleman, a scholar and a christian."

Strange things happen now-a-days. John Boyd Thatcher, in his attempt to ride into the governorship of New York supporting Bryan and opposing silver, admits that "I have learned from the fathers." Everybody had supposed that Mr. Thatcher was born knowing it all.

The "boy orator" is up to all the free advertising dodges. When he attended services in a Washington church he asked to be seated in the Lincoln pew which remains just as it was when President Lincoln used to sit in it.

Up to this time there has been less betting on the result of the campaign than was ever known; not because there are none who wish to bet but because they all wish to bet on the election of McKinley.

Leaving Missouri, Tennessee, Kansas, Nebraska, North Dakota and Wyoming, all of which will probably go republican, in the doubtful column there are 278 electoral votes for McKinley and Hobart.

It seems that Bryan has carried the International Agricultural Congress, recently in session at Budapest, Hungary, but America was not represented in that congress.

Somebody ought to try to arrange a joint debate between Henry Watterson and Tom Watson. It would be necessary to either have it out of doors or in a fireproof building.

Mr. Bryan's speaking tour in New England indicates that the man who said that Bryan made speeches for fun knew what he was talking about.

Poor Hoke Smith! Some of the southern papers speak of him as the man who left the cabinet because he believed in free silver.

It's in the Air.

It's a-coming, it's a-coming, in my bones, I feel it's coming—

The whoopeest great victory we've had since Greeley ran;

East and west and north and south are just everywhere a-humming;

We've got the plan, the platform, and we know we've got the man.

For it's McKinley O, for it's McKinley O.

With G. O. P. far in the lead, and it's McKinley O.

The Old Green Mountain state speaks out, and very soon will answer Maine;

You won't see (wall) a grease spot when they count the ballots there,

And his partner, twin tail-end, oh, he will chase his head in vain,

For they'll give them both the "marble heart,"

Likewise the "glassy stare."

They're for McKinley O, they're for McKinley O,

The G. O. P. takes all the road, and for McKinley O.

For long years of Bryan, Watson, along with Tillman, Coxey, Waite,

Whiskered Pepper, Sockless Simpson, Altgeld's uncanny crew,

To hold the helm in troublous times and guide the ship of state,

When we have a man well tried and safe, oh, that will never do,

That man's McKinley O, that man's McKinley O,

We know the man, we know him well—it is McKinley O.

They'd run the land with dollars halved, cheaper men, wild flat bills,

Peck measures for good bushels give, the yard stick cut in two;

Set all the mints to grinding, when we want to open all the mills,

And with their cranky, hobo crowd prosperity hoodoo,

So we'll have McKinley O, we'll have McKinley O;

We've known him long, he's true as steel; we'll have McKinley O.

So, it's a-coming, coming; yes, from every side it's coming;

From Maine to California they're falling into line.

Ne'er since the days of '61 such gathering and a-humming,

With Yankee-Doodle on the lead, and Dixie going to "jine!"

They're for McKinley O, they're for McKinley O;

The G. O. P. is stepping high, and for McKinley O.

SPOONER WILL DRAW AN IMMENSE CROWD

RALLY TOMORROW NIGHT TO BE A ROUSER.

People are Coming from all Parts of the County, While Madison will Send a Delegation of 100—Club to Do Escort Duty—Other Rallies Set for Tonight—Political News.

Present indications are that the Myers Grand will not hold the crowd tomorrow night when John C. Spooner will speak. Chairman W. T. Vankirk has been asked to reserve seats for parties from all parts of the county. A delegation of one hundred is expected from Madison, and County Superintendent David Throne says that farmers are coming in from miles around and especially from the vicinity of Clinton and Afton. All republicans are requested to meet at the club rooms on the bridge tomorrow evening at 7 o'clock, at which time all will be provided with badges, after which they will march to the opera house headed by the band.

Ex-Senator Spooner will be at the Hotel Myers after 6 o'clock tomorrow evening to greet all his friends.

Big Rally at Newark.

Eight republicans left the city this afternoon for Newark to attend a republican celebration. The party included Chairman W. T. Vankirk, W. A. Jackson, O. D. Rowe, Sheriff W. H. Appleby, T. W. Goldin, W. G. Wheeler, W. J. McIntyre, A. C. Thorpe.

Green County All Right.

Sheriff Durst, of Green county, was in the city today and said that the republicans would carry Green county by the largest majority ever known. Sheriff Durst is well posted on Green County politics and knows whereof he speaks.

Club Invited to Rockford.

The Republican League club has received an invitation to attend the big rally at Rockford, on Oct. 2, when J. B. Forker will speak. The invitation was sent to Chairman Vankirk. It will probably be accepted.

To Speak at Afton.

Capt. Pliny Norcross will preside at a republican rally to be held in Afton this evening and judging from preparations made a rousing meeting is in prospect.

Rally at Edgerton.

Hon. John M. Whitehead will preside at a republican rally at Edgerton this evening.

A Bryanite Prosperity Mill.

The government authorities have discovered evidence going to prove that a gang of counterfeiters has been operating in Texas, with agencies in various parts of the country. A counterfeiters' camp was found in the Lone Star state at which—judging from the moulds, crucibles and rollers that were lying around promiscuously—must have been a free coinage mint of great capacity. It is said that a consignment of 2,000 Mexican dollars was received at Waco, a few months ago, and another consignment of 10,000 Mexican dollars more recently. The theory is, of course, that these Mexican dollars were re-coined into spurious but perhaps full-weight United States dollars. But if the counterfeiters had any means of getting possession of silver bullion they would have been in no need of gathering up Mexican dollars to convert into American money.

Arguing under the supposition that these counterfeiters have been turning out spurious silver dollars of full weight, and viewing their operations from the standpoint of the popocratic advocates of the free and unlimited coinage of silver, the discovery of the operations of this gang of counterfeiters is a national calamity. The Bryanites tell us that all this country needs to restore it to prosperity is a multiplication of silver dollars. The counterfeiters have been doing their best to add to our stock of silver coin, and if they could have continued in their patriotic work they would, in accordance with the Bryanite theory, have brought about a restoration of prosperity and wrested the country from the clutches of the gold bugs. The Bryan crowd should reassemble their national convention and pass resolutions of regret over the discovery and disruption of the gang which has been secretly turning out prosperity from its crucibles and moulds.—Evening Wisconsin.

Above cut illustrates the arrangement of Bottom Flues in nearly all base burners, showing the Heat is not Equally Distributed.

The above Bottom Flue Construction causes the Heat to go to the Outer Surfaces, Largely increasing the Heating Capacity and Economizing in Fuel.

The "Favorite" Base Burner has More Heating Capacity and is the Most Economical Stove ever made. Why? Because it has about 1/4 more Radiating Surface as compared with same sizes of other base burners, and is Mounted and Fitted Perfectly.

MULCAIRNS CAUGHT BY OFFICER HOGAN

HE IS CHARGED WITH AN OLD
OFFENCE.

Allegation Made That He Was Interested in a Burglary Committed at Monterey Three Years Ago—His Alleged Partner is in Waupun—Say He Confessed.

Michael Mulcairns apparently made a mistake when he came back to Jansville, for by so doing, he got into trouble, and incidentally into jail as well.

Mulcairns was arrested by Officer John W. Hogan at 12 o'clock last night and locked up.

The charge against him is an old one, the allegation being that he was implicated with one Ole Oleson, who is now in Waupun, in the robbing of a meat market at Monterey on November 7, 1893. The police have been watching for Mulcairns during the three years since the crime was committed and last night he came back to town. Officer Hogan had been keeping one eye open for his return, and Mulcairns had not been here long before the lynx-eyed minion of the law found him. Officer Hogan at once arrested him and locked him up. This morning Officer Hogan brought the prisoner before Judge Phelps in the municipal court and in default of \$500 bail, Mulcairns went back to jail to remain until Oct. 2, when the case will come before the court again.

Say Oleson "Squealed"

Oleson, who, it is alleged, was Mulcairns' partner in the deal, is now in Waupun. He was arrested by Chief Acheson some time ago, and sentenced. Before leaving for the prison, it is said, he told the police of Mulcairns' alleged complicity in the affair.

The building that was robbed was owned by John Hray, and occupied as a market, by Max Grampe and Julius Beale. The goods taken were valued at about \$60, as follows: coat, vest and pants, \$10; blue coat and vest, \$15; pants, \$8.50; paracels, \$1; watch chain, \$1.50; money, \$2 and an overcoat worth \$20.

It is said that the case against Mulcairns is a strong one, and as the offense is punishable by imprisonment in the state penitentiary, the police say that it is very likely that Mulcairns will join his alleged partner at Waupun.

The Jansville police always "get there" even if the men they want do "lay low" for a long time in some cases.

Assault Case Dropped.

The case of the state of Wisconsin against William and Patrick Fanning, came up in the municipal court this morning, and for the lack of sufficient evidence, the case was dismissed. John Connolly, the complaining witness, failed to show that the Fanning brothers "assaulted and pounded him." Attorney Ed. F. Carpenter appeared for the defendants, while Attorney John Cunningham appeared for the prosecution.

Mrs. Caldwell, who is said to have caused some annoyance to those with whom she had rooms, was this morning ejected from a house on North High street, by Sheriff Appleby, on a writ issued by Justice Richardson.

STATE FAIR A FINANCIAL FAILURE

Officers of the Wisconsin Agricultural Society Re-elected

There was a small attendance at the state fair at Milwaukee, which will result in its being a financial failure. The farmers did not come to the fair as they did in former years. The old officers were re-elected they being: President—S. D. Hubbard, Mondovi; Secretary—T. J. Fleming, Milwaukee; Treasurer—M. R. Doyon, Madison. Clinton Babbitt, of Beloit, was made vice president for the first district. James Scott, of this city, was made a member of the committee to select ten directors, while E. B. Heimstreet and Alex Galbraith are members of that board.

The Shoes Are Here.

We spoke a few days ago of receiving word from a shoe manufacturer with whom we placed a large order, that our shoes had been shipped, and would probably reach here within a few days. They came yesterday, and, if we may appear conceited, are the prettiest line of fall and winter shoes for men in the city. Twelve different styles came in they invoice, and any one of them draws forth admiration from those who have already inspected them. There is a style, a grace about our goods not found in the usual everyday stock. That's why we have the name of being the up-to-date shoe men of the city. We want you to come in and look over our late arrivals, even though you don't buy. Our large ad. tells about some of them. A. Richardson Shoe Co.

MAN MADE A MOVE TO "DRAW A GUN"

EXCITING "ARGUMENT" ON THE
AFION TRAIN.

Gold Man Cornered The Silver Man, and Choked Him When The Latter Reached for his Hip Pocket—Ladies in the Car Fled in Alarm—Quiet Soon Restored.

People on the C. & N. W. "scout" thought they were about to be eye witnesses to a murder yesterday afternoon and ladies fled precipitately from the car.

One man reached for his hip pocket as if to draw a revolver, but an instant later his adversary had him by the throat and the other passengers had seized his arms. Then the gravity of the situation was realized and the angry men became quieted.

An argument on the financial question was responsible.

The train left Jansville at 2:10 o'clock yesterday afternoon. Among the passengers was G. W. Haskins, a traveling man from Chicago. Haskins and another man got into a discussion, of the currency question. Haskins was a "gold man," while the other man championed silver. Haskins had the large end of the argument, and the people in the car were apparently in sympathy with Haskins, and occasionally they would "chip in." The discussion continued until the train reached Afton, and the whole party seemed to be having plenty of fun.

Silver Man Got Angry.

Finally the silver man was "cornered" by Haskins, and the crowd began to laugh and chaff him. The silver man became greatly enraged, and the discussion got heated. One word led to another and it looked as if trouble was imminent. By this time the train had reached Afton, and it was found that the Chicago passenger was twenty-five minutes late. The Afton train had orders to wait for it to arrive, so there was plenty of time to argue. Soon the argument was being carried on at the top of the voices of the speakers, and a proposition to fight was made by the silver man. Haskins was "willin'," and the crowd jeered.

Then the silver man's hand shot back to his hip pocket.

Haskins saw the move, and before the silver man could withdraw the hand, Haskins had him by the throat with one hand, while the silver man's "gun arm" was secured by the other. The crowd quickly closed in around the two men, and both soon "cooled off."

There was great excitement in the car when the silver man "reached for his gun," and the ladies in the coach, headed by Mrs. P. W. Meehan, the Beloit grocer's wife, fled.

The silver man refused to give his name, and boarded the Chicago train as soon as it appeared. F. M. Goodwin of this city, was one of the eye witnesses, and says things looked equally for a time.

WILL RUN THE CARS IF IT IS POSSIBLE

MANAGEMENT DOESN'T WANT
TO SHUT DOWN.

Supt. Cummins will Make an Effort To Keep the Line in Operation all Winter, But Operating Expenses Must be Realized—Will Carry School Children.

Jansville street cars will run all winter this year, if it is possible to keep the line in operation after the snow comes.

So says Superintendent Cummins. Mr. Cummins is anxious to keep the line in operation this year, and hopes to be able to do so. One thing is certain, however, and that is that the cars will not run at a loss. Therefore Superintendent Cummins is figuring on the proposition of how to make the revenue sufficient to meet the expenses. The whole matter turns on this proposition, and Superintendent Cummins is as anxious to run the cars as the patrons are to keep them running. Mr. Cummins will make a special rate for school children this year, and place it low enough to make it an object for the children to ride. This one plan, he hopes, will help to solve the difficulty. All he requires is that the line pay actual operating expenses, and he is willing to make concessions to achieve that end.

"We do not want to close down this year, as we have before," he said to a Gazette reporter, "and will make a desperate effort to keep the cars running all winter. If we can carry enough school children, or make any similar arrangement that will pay operating expenses, I will guarantee to keep the cars moving."

Only the immediate relatives of the two families were present."

"Mr. and Mrs. Sargent started on a short trip, and will be 'at home' in Milwaukee, after October 7."

Jansville friends will attend congratulations.

M'KINLEY'S SPEECH TO LINCOLN CLUB

REPUBLICAN CANDIDATE'S
TALK TO ERIE MEN.

The Name of the Liberator Dragged in the Dirt by the Promulgators of False and Insidious Doctrines—A Stirring Address by the Great Leader.

I doubt if there is any other name in American history which more fully typifies the possibilities and triumphs of American opportunity than that of Abraham Lincoln. (Cheers.) His life and career put to shame the false doctrines now so insidiously promulgated that there are class divisions in the United States. (Tremendous applause and cries of "Good.") Humble of birth, surrounded by poverty, forced by circumstances to acquire unaided whatever education he had, he forged his way to the front, reaching the highest place in the gift of a free people and the greatest place in the world. (Great applause and cries of "We'll put McKinley there too.")

He demonstrated while in office wonderful ability and met every public exigency in the most trying years in our history with consummate sagacity and strength. It is gratifying to us to know that on the great questions which are dividing us this year Mr. Lincoln stood from the beginning of his early manhood where we stand to-day. We have the satisfaction of knowing that in the present struggle we are close to him and have his approval of the great principles we advocate. (Applause.) No man has shown more thorough knowledge of the tariff and its influence upon domestic prosperity than he.

Forty-three years ago he made an address upon the subject of tariff and taxation and their effects upon the condition of the country which I think has not been excelled by anybody before or since. It is peculiarly applicable to the present situation. Lincoln said: "The first of our resolutions declares a tariff of duties upon foreign importations, producing sufficient revenue for the support of the general government and so adjusted as to protect American industries, to be indispensably necessary to the prosperity of the American people; and the second declares direct taxation for a national revenue to be improper." (Great applause.)

Listen to his description of the condition of the country at the time when he spoke and how vividly it portrays the times in which we live. "For several years past the revenues of the government have been unequal to its expenditures, and consequently loan after loan, sometimes direct and sometimes indirect in form, have been resorted to, and by this means a new national debt has been created and is still growing on us with rapidity fearful to contemplate—a rapidly only reasonably to be expected in time of war."

You would think that Abraham Lincoln was describing the three years from 1893 to 1896. (Great applause.) Is it any wonder when the national convention met in Chicago, May 17, 1896—the second national assemblage of the great republican party—the following resolution was passed, which is the same doctrine that we advocate now?

"Resolved, That while providing revenue for the support of the general government by duties on imports, sound policy requires such an adjustment of these imports as to encourage the development of the industrial interests of the whole country; and we commend that policy of national exchanges which secures to the workingmen liberal wages, to agriculture remunerative prices, to mechanics and manufacturers an adequate reward for their skill, labor and enterprise, and to the nation commercial prosperity and independence." (Tremendous cheering.)

That, my fellow citizens, was the Lincoln platform of 1860, and it is the republican platform of 1896. (Great cheers and cries of "That's right.")

I am glad to meet the young men of the republican league of the state of Pennsylvania. There is no surer safety for our institutions than the manifestation of intelligent and patriotic interest by the young men of the United States. America is the country of the greatest and freest opportunity. We have no hereditary rulers, and we will have none. (Applause and cries of "That's right.") We have no privileged class and we will have none. (Cheers and cries of "That's right, too.")

There are two great incentives to American manhood—the realization of the individual ambition and patriotic devotion to country. The more active and intelligent the participation of every citizen in the affairs of state, the freer and purer and greater will be the government. Here all citizens are interested in the government and here represented in this great assembly are men of every vocation and profession, but you are here because you believe alike and because you do not want free silver. (Great cheering and cries of "Hurrah for McKinley!")

We do not delegate to anybody our right to govern. We cannot delegate the right to anybody. It is a sacred trust which cannot be performed by a substitute, but must be done by each citizen for himself. Indifference to our duties as citizens will inevitably be followed by incompetency and corruption in public affairs. There is no higher evidence of true patriotism than hearty and earnest interest in the affairs of the government with the object in view of securing to all the people the greatest possible good.

The discussion, such as we are having now, and at last the sober, intelligent use of the ballot, is the surest foundation upon which our institutions rest and takes the place of revolution in a despotic government. (Great applause.) The source of all power is from the people themselves. That is everywhere accepted as the foundation of our political fabric.

The republican party has always been the party of lofty purposes. It never had an aim from the first moment of its existence until now which did not embrace the common good of all. (Loud applause and cries of "That's right.") It never fought a battle against liberty and equality. (Applause.) It never struck a blow except for mankind. (Applause.) It was organized in conscience. (Great applause.) No political party has been formed since the beginning of time which so appeals to the intelligence, enthusiasm and conscience of the young men and the old men as the republican party. (Great applause and cries of "That's right.")

It never waged a contest in all its glorious past which more strongly appeals to the best sentiments and the noblest aims of both young and old as to-day. Its past is illustrious with great deeds, but it does not stop with its past achievements. It does not rest its claim for confidence upon them alone. It deals with the problems and issues of the day which are vital to the welfare of the country and maintains the lofty purpose which has characterized it from the beginning. It stands for country now, and will guard with sleepless vigilance its honor as it guarded its life in the mightiest crisis in our history. (Cheers and cries of "You bet it will!")

CAMPAIGN NOTES.

More business will bring more money, but coining silver dollars won't bring more business. More business will come when we get the proper tariff legislation. We will get the proper tariff legislation when we elect a republican president and congress. We will elect a republican president and congress next November.

The American people have known what they want for over three years. Those who thought they had changed their minds about the time of the Chicago convention were much mistaken.

There is no interest in this country that isn't threatened in some way by the declarations of the Chicago platform.

The farmers are told they will profit from robbing their best and almost their only customers of half their earnings.

There is not much chance to argue with a man who disputes the multiplication table.

Watson intimates that whatever they may do with the democratic standard they are not going to drag the tail of the ticket in the dust.

Silver was not "struck down." But protection was.

Protection that empties the treasury is no protection. Protection that permits the unlimited influx of cheap labor is no protection. The working people of this country want protection that will protect.

Argument and Experience.

When the silver agitation began in 1877 with the silver dollar worth 92 cents, strong arguments could be made for the remonetization of silver, and they impressed many people.

In eighteen years these arguments have all been answered by experience. For fifteen years the United States coined an average of \$26,000,000 of silver a year, and the silver dollar sank to 80 cents in 1890. Then it was proposed that the United States take up all its silver product. As this, with the coinage of India, Mexico and other silver-using countries, disposed of the entire annual product, Senator Stewart predicted that silver would go to par. In 1893, at its highest, the silver dollar was worth 65 cents, and at its lowest 51.

The experiment had failed. Experience had ended argument. Today, the silver dollar is worth 53 cents. The day of argument for the silver dollar is over. Mr. Bryan makes none. He simply asserts that with free silver coinage the silver dollar will go to par. He gives no reasons. He simply repeats the assertion. All over the country, it is the same. No silver paper is printing any arguments. Their articles declare that a great wrong was done in demonetizing silver, propose to remonetize it, and assert that the farmer will gain. This is all. No one has any facts or figures. The one plea is: "Times are bad. This will mend them."

Was ever a great country led by a dimmer light to a deeper bog?—Philadelphia Press.

Passing of a Silverite.

Pause, stranger, pause, as you pass by, And shed a briny tear In kindly memory of him Who lies interred here. I did not die of fever dread, Nor cramps, nor indigestion; I croaked of too much telling how To solve the money question.

The Intense Heat Across the Water.

The weather in London shows no sign of change. At night the thermometer is many degrees above the average. In the afternoon the thermometer rises to 86 degrees, while for several hours it remains above 80 degrees. There is scarcely a breath of air, and during the night the temperature does not fall below 60 degrees. Eleven hours of bright sunshine were registered one day at Westminster. The sun was strong at 4:30 in the morning, not a cloud being in the sky.

The meteorological office reports that the thermometer rose to 80 degrees one day, and upwards in many parts of England, and to 86 degrees in London and Cambridge. At Haparanda, Hernösand and Paris it also reached 86 degrees, at Nice 91 degrees and at Lisbon 96 degrees. The depression over Scotland seems likely to move away to the northward. Over England and France barometrical pressure is very uniform, but conditions are becoming favorable for the development of small thunderstorm depressions.—St. James Gazette.

Worrying Over Trifles.

Mrs. Wild—"I've turned everything upside down, but cannot find my bathing suit." Wild—"Why let a little thing like that worry you?"—Up-to-Date.

The dates officially recognized as the beginning and the end of the civil war are Jan. 9, 1861, when the United States steamship Star of the West was fired upon by state troops in Charleston harbor, and April 8, 1866, when the president proclaimed the rebellion at an end.

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. It is really astonishing how much abuse it will stand. Sometimes, however, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick and cause constipation. Nine-tenths of all human sicknesses are due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, salivaceous distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny sugar-coated granules, mild and natural in their action. There is nothing injurious about them. Sold by druggists.

DEADLY AS ABSINTHE.
Two French Cordials Which Destroy Both Body and Mind.
From the New York Sun: The importation of cordials, of which there is a very large consumption in France, Italy, and some parts of Germany, has been increasing largely of late years, though, for a time, the increased duty imposed by the McKinley tariff bill had an unfavorable effect upon such imports. One of the provisions of the McKinley law (schedule H.) was that any wine, ginger cordial, or vermuth, containing more than 24 per cent of alcohol was to be forfeited, but cordials of a lower alcoholic percentage the duty was made 50 cents per gallon and \$1.60 a case. Prior to 1888 the average importation into this port of such cordials amounted to 30,000 cases a year. In the first year of the McKinley tariff the increase, gradual until then, ceased and there was a decline; but recently the importations have averaged about 45,000 cases in a year.
Absinthe, much of which comes from Switzerland and some from Italy and France, has long had a sinister reputation as a dangerous cordial, destructive, when taken to excess, to the nerve tissues and especially injurious to the brain. Absinthe has of late had two rivals among imported cordials, and, as the taste for fancy beverages is an irregular and variable one, changing with the fashions, these two rivals may continue to grow in the good graces of cordial drinkers until by some caprice of drinkers' taste they are superseded by a rival or there is a return in popularity of absinthe or vermuth. One of these is ambrapicon, a rich Vandyke-brown liquid, made from acrid plants and flavored with orange peel. It is usually drunk with an addition of one-fourth its volume of curacao and four times its volume of ice water. The other is grenadine, a syrup or cordial made from the pomegranate and when bottled having the very attractive appearance of mixed pink and cherry liquids. The difference between ambrapicon and grenadine is, primarily, one of color, the former being brown and the latter cherry pink. Still another point of difference comes from the origin of the two, the ambrapicon being French and the grenadine Spanish, though both are manufactured extensively in the Bordeaux district in France. These cordials, especially to a jaded appetite, have a pleasant taste. It is a rather odd consideration that, though the chief flavoring ingredients of cordials come either from France, Italy or Spain, cordials among the resident inhabitants are practically unknown in these three countries, and adventurous Americans calling for cordials with more of the fervor of patriotism than conception of existing climatic conditions are referred somewhat contemptuously to "American bars" in the cities which have them. The taste for cordials or liquors owes much in France and Italy to the favor of women among whom such dainty beverages as creme de vanille or parfalt amour are preferred to stronger concoctions. Absinthe and ambrapicon women do not generally care for. Grenadine has a large female constituency, due, perhaps, to the popularity of the pomegranate.

Cremation.
It is noteworthy that, though in each of the American crematories more men than women have been cremated, the movement abroad was practically begun by women, Lady Dilke of England and a German woman having been cremated at Dresden. When efforts were made in the years 1873-74 on the continent of Europe, in England, and in the United States, in favor of the cremation of the dead, Lady Rose Mary Crawshaw was one of its prominent advocates. A number of well-known women in this country have expressed themselves decidedly in favor of cremation. Among them are Olive Thorne Miller, Mrs. Lippincott, Mrs. J. C. Croly, Mrs. Ella Wheeler Wilcox, Mrs. Alice D. Le Plongeon, the late Kate Field, Rose Eliabeth Cleveland and Edith Thomas. At a public meeting Mrs. Ballington Booth referred to the time when her body should be carried to the crematory. The total number of cremations in the United States from 1876, when the first crematory was established, to the close of 1895, was reported to be 4,647. Nearly 1,000 persons were cremated in the last year in twenty-one crematories. In the crematory at Fresh Pond, N. Y., eighty-five boys and sixty-girls were incinerated. The number of men cremated in New York is more than double the number of women.

Reforms in the Transvaal.
Reforms are being pushed through the Transvaal legislature, now that the danger from British aggression is past. The lower house has repealed the law that disqualifies Catholics from holding office, while the upper house has passed a liquor law forbidding the sale of spirits to natives in the Rand gold fields.
No Arrears Recognized.
Old Retainer (confidentially)—"Yes, sir; most of us in the servants' hall has been in the Earl's family for forty years." The Earl's Father-in-Law (from Chicago)—"Well, I'm sorry for you, but you can't get any forty years' back wages out of me."—Puck.
Generous.
Mrs. Blinkers—"Well, did you go to the doctor to see about that bee-sting on little Johnny?" Mr. Blinkers—"Yes. He said we should put mud on it. He charged me \$7 for the prescription, but he gave me the mud for nothing."—New York Weekly.

BASEBALL REPORT.

Games Played in the National League Yesterday.

Capt. Tebeau of the Cleveland Baseball club said yesterday that while no definite arrangements had been made for the Temple cup games between the Cleveland and Baltimore teams there is but little doubt that the first three games of the series will be played in Baltimore next Thursday, Friday and Saturday. The next three games will probably be played on the Cleveland grounds during the first three days of the following week. The decisive game, if needed, will be played on neutral grounds. Martial Law in Force.

Leadville, Colo., Sept. 25. — Except that the civil officers are for the time being allowed to exercise their constitutional prerogatives, provided they do not interfere with General Brooks' movements, military rule is supreme in Leadville. The following officers and members of the Miners' union are in jail under a strong guard, being held for the murder of Fireman O'Keefe: Peter Turnbull, vice president; E. J. Dewar, secretary; George Handy, William O'Brien, Patrick Kennedy, J. V. Doyle, Joseph Otis, John A. Ahern, George Richards, Ernest Nicholas, Eu-

gene Cannon, Cornelius Shea, Michael Weible, Gus Johnson and Nels Clausen. Five members of the executive committee, including President Amburn, are still at large, and search is being made for them.

Ocean Liner Driven on Shore.

Amsterdam, Sept. 25.—A North German Lloyd steamship has been blown on shore on the island of Terschelling in the North sea between Vleiland and Ameland. No details of the accident have been received as yet.

Publish the Bismarck Letter.

Hamburg, Sept. 25.—The newspapers here publish the letter sent by Prince Bismarck to Governor Culberson of Texas on the silver question, which has been published in the United States.

Laborites in City of Mexico.

City of Mexico, Sept. 25.—The delegations sent here by United States labor societies to study the wage question and cost of living arrived here and are having every facility accorded them.

Spanish Women Witness Executions.

Havana, Sept. 25.—Five prisoners were executed, two garroted, and three shot yesterday. Two thousand people, mostly Spanish officers and their wives, witnessed the executions.

German Catholic Convention Ends.

Detroit, Mich., Sept. 25.—Delegates to the German Catholic convention spent Thursday in pleasure seeking. The sessions of the week closed in the evening with a banquet at the Hotel Ste. Claire.

Want to Marry Her.

The young woman of Nashua, Ia., who started the Boies stampede in the Chicago convention, tells a Chicago paper about her post-convention fame. It seems that the people of Nashua haven't made much of her, because they are "gold bugs." But she gets a heavy mail, many of the letters containing offers of marriage. One clergyman in Canada, "with dark brown hair and dark slumbering eyes," wrote her that he was willing to crawl twenty miles "on his hands and knees" to see her. She tells many other similar incidents, and is evidently proud of the part she is playing on the world's stage.

Discouraging Naville Enterprise.

The British authorities in India have been obliged to discontinue the bounties on dead snakes, because the natives went into the business of breeding the reptiles on a large scale in order to secure the reward paid for their dead bodies.

A Weak Comparison.

"They call that police officer the weasel." "Poor name." "Why so?" "You can't catch a weasel asleep."—Cleveland Plain Dealer.
